PROFESSIONAL SUMMARY

Frontend, Flutter, and Android Developer skilled in Dart, Kotlin, JavaScript, TypeScript, React, Firebase, REST API integration, and clean component-based UI architecture, with hands-on experience building responsive web and mobile applications for food recipes, AI voice interaction, and hostel meal management.

SKILLS

Frontend Development: React, TypeScript, HTML5, CSS3, JavaScript, Responsive Design, Component-Based UI	Mobile Development: Flutter, Dart, Android, Kotlin, Java
Backend & Integration: Node.js, Express, Firebase (Auth, Firestore), PostgreSQL, REST API Integration	Programming Languages: Python, Java, Kotlin, Dart, SQL
Tools & Platforms: Git, GitHub, Android Studio, VS Code	

PROJECTS

Smart Hostel Food Management React, TypeScript, Node.js, Express, PostgreSQL, AI, QR Verification	2026
Full-stack hostel meal management platform with student and admin dashboards, booking, and history tracking.	
- Built a full-stack hostel meal management platform with student and admin dashboards, meal booking, and QR verification. - Implemented feedback analytics, AI menu planning, report exports, authentication, and role-based access.	
github.com/channabasav7/Smart-Hostel-Food-Management	
Food Recipes App Flutter, Dart, Riverpod	2026
Flutter recipe app with categorized browsing, favorites, and detailed meal screens.	
- Built a Flutter recipe app with categorized browsing, favorites, and detailed meal screens. - Used Riverpod state management and reusable widgets for clean navigation and responsive UI.	
github.com/channabasav7/Food-Recepies	
AI Voice Assistant JavaScript, HTML, CSS, Node.js, Web Speech API, n8n	2026
Voice-enabled AI chat interface with text chat, speech recognition, and file upload support.	
- Developed a voice-enabled AI chat interface with text chat, speech recognition, and file upload support. - Integrated a Node.js proxy server with n8n webhooks and built a responsive, accessible interface.
