

CHANNABASAVA

FLUTTER AND ANDROID DEVELOPER

channabasav40@gmail.com | linkedin.com/in/channabasava-s-m-66b140299 | github.com/channabasav7 | channabasava.vercel.app

PROFESSIONAL SUMMARY

Flutter and Android Developer skilled in Dart, Kotlin, Java, Firebase, and REST API integration, with hands-on experience building cross-platform mobile applications including a food delivery app, a voice-assistant, and e-commerce UI projects. Strong focus on clean, widget-based architecture, reusable UI components, and reliable application flows. Open to internship and entry-level Flutter/Android Developer opportunities.

SKILLS

Mobile Development: Flutter, Dart, Android, Kotlin, Java

Frontend: HTML5, CSS3, JavaScript

Backend & Integration: Firebase (Auth, Firestore), REST API Integration

Programming Languages: Python, Java, Kotlin, Dart, SQL, Pandas

Tools & Platforms: Git, GitHub, Android Studio, VS Code, Power BI

PROJECTS

Food Delivery App | Flutter, Dart

2026

Cross-platform food delivery application with a clean, widget-based, reusable UI architecture.

- Built responsive mobile screens covering browsing, ordering, and navigation flows.
- Focused on maintainable code structure and an intuitive ordering journey.
